JARCRAC MULTI

Powerful, economical and versatile.

The Multi is suitable for rugged terrain such as soft swamps and ditched areas. The long suspension and the swing structure of it allows smooth working in uneven terrain.

The accessory possibilities are versatile. *The Multi* can be equipped, for example, with a three-way hitch, a loading space and a power take-off, which allows the use of wide range of work equipment.

This type of machine has good user experiences, including electricity companies, which pass through electricity lines in different terrain.
